Statement

The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioner/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

**PETITION FOR REVIVAL OF AN APPLICATION ABANDONED
UNINTENTIONALLY UNDER 37 CFR 1.137(b)**

Mail Stop Petition
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

In reviewing the above captioned patent application, it has come to Applicants' attention that the Combined Notice of Appeal from the Primary Examiner to the Board of Patent Appeals and Interferences & Petition of Extension of Time filed April 25, 2005, was erroneously not followed up by filing an Appeal Brief or Petition for Extension of Time. Please grant this petition under 37 CFR 1.137(b) for revival of the U.S. Patent Application No. 09/606422 application solely for purposes of co-pendency with the later-filed U.S. Patent Application No. 11/267873, on November 4, 2005.

REMARKS

U.S. Patent Application No. 09/606422 was unintentionally abandoned as of June 25, 2005. Applicants respectfully request revival of U.S. Patent Application No. 09/606422, under 37 CFR 1.137(b) solely for purposes of co-pendency with U.S. Patent Application No. 11/267873 (in which Applicants claimed benefit of priority to U.S. Patent Application No. 09/606422).

On September 13, 2005 Applicants noted upon review that PAIR had no indication of receipt of the above referenced document to date, although Applicants' deposit account had been debited by the payable fees of \$475.00 on April 28, 2005. Accordingly, Applicants contacted Patent Examiner Hutton, who confirmed that neither PAIR nor PALM system had been updated with receipt of a Combined Notice of Appeal from the Primary Examiner to the Board of Patent Appeals and Interferences & Petition for Extension of Time, indicating that it has probably been lost by USPTO. Examiner Hutton suggested that a duplicate copy be forwarded to the Commissioner for Patents, Mail Stop AF. This was done on September 21, 2005 in accordance with Applicants' election to file a continuation patent application concurrently.

Applicants unintentionally failed to recognize (1) the need for an extension of time for the applications to have been co-pending and (2) the failure to file a petition for any extension of time in the parent application.

Applicants respectfully submit that the delay in filing the required reply from the due date until the filing of a grantable petition pursuant to 37 CFR § 1.137(b) was unintentional.

The reply that was required in the parent application (which was abandoned for failure to prosecute) is met by the filing of the continuation on November 4, 2005, 37 CFR § 1.137(c). Applicants also submit with this petition, a petition in the parent application for an extension of time by which, if it had been granted, the parent application would have been co-pending with the continuation on November 4, 2005, when the continuation was filed.

This petition is properly accompanied by the petition fee set forth in § 1.17(m).

No terminal disclaimer is required with this petition. 37 CFR §1.137(d)(3).

Revival of U.S. Patent Application No. 09/606422 under 37 CFR 1.137(b) solely for purposes of co-pendency with U.S. Patent Application No. 11/267873 (in which Applicants claimed priority to U.S. Patent Application No. 09/606422) is respectfully requested.

Respectfully submitted,

February 1, 2006
